Project Experience

Blockdust | <https://blockdust.herokuapp.com/>
<https://github.com/laszlo-ratesic/block-dust>

- A CMS-style blogging site that follows the MVC paradigm. Users can sign up, write posts, and comment on entries throughout the Blockdust ecosystem.
- Built REST API to perform CRUD operations and handle user session authentication. Integrated relational database with interactive frontend.
- Uses Node.js, Express, Handlebars, and MySQL

47th Street | <https://youtu.be/8o2W45Vv-mc>
<https://github.com/laszlo-ratesic/47th-street>

- Backend routing for an eCommerce website. 47th Street allows site managers to interact with their relational data through this robust API.
- Configured database models, and environment variables to protect data integrity. Scripted schema and mock data for seeding/testing.
- Uses JavaScript, Sequelize, MySQL2, and Insomnia

Backdraft Core | <https://youtu.be/wSGBwgS6nS8>
<https://github.com/laszlo-ratesic/backdraft>

- CLI for organizing a core team's contact information.
- Used OOP principles to organize command line input complete with unit tests, and generated dynamic, responsive HTML
- Uses Node.js, Inquirer, Jest, Figlet, Gradient String

Achievements

- J. Landon Short Grant Winner (SBISD 2021 & 2022)
- Teacher of the Year Nominee (SBISD 2021)
- Erasmus+ Grant Winner (Paris, France 2019)
- Recipient of the Distinguished Achievement of a Theatre Student Award (SFA, 2014)
- Cole Leadership Apprentice Scholarship (SFA, 2014)
